

Doyle Stulting, MD, PhD
Woolfson Eye Institute
800 Mt. Vernon Hwy NE, Suite 130
Atlanta, Georgia 30328

Doyle Stulting, M.D., Ph.D. is Director of the Stulting Research Center, Woolfson Eye Institute, Atlanta, GA, Professor of Ophthalmology Emeritus, Emory University, and Adjunct Professor of Ophthalmology, the Moran Eye Institute, Salt Lake City, UT.

He has performed refractive surgery for more than 20 years, participating in the physician-sponsored clinical investigation of LASIK before the first refractive laser was approved by the FDA in the United States. He also performs routine and complex cataract surgery, as well as corneal transplantation. Dr. Stulting specializes in the management of keratoconus and corneal ectasia following LASIK, including corneal collagen cross-linking performing multiple clinical trials for the procedure since 2008.

For ten years, Dr. Stulting was a member of the FDA Ophthalmic Devices Panel and completed a term as Chair of the Panel in 1998. He is Past President of the American Society for Cataract and Refractive Surgery, has served on the Board of Directors of the Eyebank Association of America, is a member of the Board of Directors of the Georgia Eye Bank, and is Co-Medical Director of the Georgia Eye Bank. Dr. Stulting recently completed a 10-year term as Editor-In-Chief of the journal *Cornea* and is on the Editorial Board of other journals.

Dr. Stulting has been principal investigator for a number of NIH-supported clinical trials. He was co-director of the Collaborative Corneal Transplantation Studies, has authored over 200 papers in peer-reviewed journals, published several textbook chapters, taught courses for over 30 years at the American Academy of Ophthalmology, and lectured around the world. He was awarded the American Academy of Ophthalmology's Senior Honor Award and the FDA's Citation for Excellence, Commitment, and Outstanding Service in Protecting the Public. He received the prestigious Paton Award from the Eyebank Association of America.

Dr. Stulting graduated *summa cum laude* from Duke University in Durham, N.C, with a BS degree in chemistry. He received his MD degree and PhD in microbiology and immunology from Duke. He completed his internal medicine internship and residency at Washington University's Barnes Hospital and his ophthalmology residency at the University of Miami, Bascom Palmer Eye Institute. Dr. Stulting completed a fellowship in cornea and external disease at Emory University, where he practiced, taught, and performed research from 1982 to 2010.

In 2010, he left Emory University to found the Stulting Research Center at Woolfson Eye Institute, where he conducts a variety of clinical trials in cataract, refractive surgery, cornea, and external disease.
